

The Pesticide functions of the WDA Technical Services Division are primarily:

- Compliance Assistance and Enforcement of the Wyoming Environmental Pesticide Control Act of 1973
- Compliance Assistance with EPA Rules and Regulations
- Training, licensing, certification and/or inspection of pesticide users, dealers, commercial applicators, and public agencies using restricted use pesticides
- Management of pesticide/groundwater State Management Plan (SMP)
- Worker Protection Standards (WPS) Training

Supplemental Pesticide Labels

- [Section 18](#)
- [Section 24\(c\)](#)

Section 18:

[Checkmite](#) For control of varroa mites and small hive beetles in honeybee colonies

[Checkmite](#)

[Provisions](#) Letter stating agency and applicator requirements for use of Checkmite

[Poncho 600](#) For control of leafhoppers in sugar beet seed (Vectors of beet curly top virus)

[Warrior T](#) For control of cereal leaf beetle, army cutworm, pale western cutworm in malting barley

[ENVIRON LPH](#) For deactivation of prions in TSE testing laboratories

[Hivastan](#) For control of varroa mites

Section 24(c):

[Acramite 4SC](#) For control of spider mites in alfalfa grown for seed

[Asana XL](#) For grasshopper control in CRP land

[Assail Cerexagri-Nisso](#) For control of lygus bugs in alfalfa grown for seed

[Assail Nisso](#) For control of lygus bugs in alfalfa grown for seed

[Assail UPI](#) For control of lygus bugs in alfalfa grown for seed

[Basagran](#) For control of weeds in alfalfa grown for seed

[Beleaf ISK](#) For control of lygus bugs and aphids in alfalfa grown for seed

[Beleaf FMC](#) For control of lygus bugs and aphids in alfalfa grown for seed

[Brigade 2EC](#) For control of lygus bugs, weevils, aphids, and spider mites

[Capture 2EC](#) For control of aphids, lygus bugs, weevils, and spider mites in alfalfa grown for seed

[Comite](#) For control of spider mites in alfalfa grown for seed

[Dibrom 8](#) For control of lygus bugs in alfalfa grown for seed

[Discover](#) For control of grass weed in spring wheat and winter wheat

[Discipline 2EC](#) For control of aphids, lygus bugs, thrips, spider mites, and weevils in alfalfa grown for seed

[DRC - 1339](#) For control of Common Crows (*Corvus brachyrhynchos*), Common Ravens (*Corvus corax*)

[Endura](#) For the control of spring black stem and white mold in alfalfa grown for seed

[Firestorm](#) For the desiccation of clover for the harvest of seed

[Furadan 4F](#) For control of grasshoppers in grass for CRP

[Fusilade DX](#) For control of quack grass in alfalfa grown for seed

[Kaput-D](#) For control of prairie dogs

[Mustang Max EC Insecticide](#) For control of seedling and foliar pest in sugar beets

[Mustang Max 8 EC](#) For control of seedling and foliar pest in sugar beets

[Onager](#) For control of spider mites in alfalfa grown for seed

[Paraquat SL](#) For the desiccation of clover for the harvest of seed

[Pendimethaline](#) For weed control in alfalfa production grown for seed

[Prowl H20 Herbicide](#) For weed control in alfalfa grown for seed

[Prozap](#) For control of prairie dogs **(March 1 - June 30)** on rangeland & adjacent timber

[Rimon 0.83 EC](#) For control of lygus bugs in alfalfa grown for seed

[Rozol Prairie Dog Bait](#) For control of prairie dogs

[Sonalan HFP](#) For control of nightshade in alfalfa and clover grown for seed

[Spitfire Plus](#) For control of annual and perennial weeds in declining alfalfa stands

[Stratego Fungicide](#) For control of rust in wheat

[Supracide 2E](#) For control of certain insect in alfalfa grown for seed

[Velpar L](#) For weed control in forage alfalfa

[ZP Ag Oats](#)

[Bell-Motomco](#) For prairie dog control in alfalfa, wheat and barley

[ZP Rodent Oat Bait Ag](#)

Bell Labs

For prairie dog control in alfalfa, wheat and barley
